

LEGEND

The Legend golf course was built according to PGA specifications and our equally exacting requirement: Meld into the exceptional, wild surroundings. This 18-hole course on the Indian Ocean features lagoons and lakes at every hole and dense, natural vegetation. Herds of Java deer are found in few places on earth; they live and wander freely at Legend. A challenge for golfers and deer watchers at every level.

The championship golf course is adjacent to the most beautiful white sand beaches in Mauritius. Set in the heart of an indigenous forest which was originally intended for deer breeding.

- Opened in January 1994.
- Designed by Hugh Baiocchi (South African golf legend). - Hosted The Mauritius Golf Open
- from 1992 to 2008.
- Hosting The MCB Tour Championship, a European Senior Tour Event since 2009.

- 18 holes, par 72 / 6018 m / 70 hectares. - Green grass: Tifdwarf.
- Fairway grass: Cynodon Dactylon.
- Signature hole: par 3, the 17th has a splendid view over the lagoon.

- Driving range, chipping and putting

— ✓ GOLF ACADEMY >—

The Constance Golf Academy gives our guests the full golfing experience. Our instructional program fits in with our guests' daily schedule, offering individual and group lessons with our professional golf coaches.

The teaching method includes: grip, posture, alignment, ball position, on course strategy, how to lower handicap as well as short game experience.

HIGHLIGHT OF YOUR STAY

Challenge yourself on the MCB Tour Championship fairground. Reconnect with local wildlife, observe wild Java deer wandering the golf course.

Enjoy an after-golf cocktail at sunset at the Deer Hunter Restaurant. Take your game to the next level at the Constance Golf Academy with our professional golf coaches.

CONSTANCE GOLF LEGEND HOLE BY HOLE

> HOLE 1

An easy short par 4 to begin with but care must be taken with the drive as there is water on both sides of the wide fairway.

Most players may elect to play a long iron or a 3 wood which will still leave them a short iron shot to the green. This is a very real chance to start the round off with a birdie.

> HOLE 4

A birdle chance for big hitters. The hole can be shortened by keeping the ball as far left as possible but beware of the water that protects both sides of the fairway. The green is guarded by three bunkers but a chip and a putt for birdle is very possible.

This is the most challenging par 3 on the course. Normally against the wind a long iron will be needed to make the green which is protected on both sides by a bunker.

This right dogleg hole is protected by a pond on the right and a bunker on the left at the bend in the

Once the tee shot has been negotiated, this is a definite birdle chance.

> HOLE 13

Certainly a hole for long hitters. Although not the longest par 5 on the course it does have a very long carry over water to an elevated

The fairway narrows as it approaches the green with a bunker guarding the right hand side. A great risk and reward hole.

> HOLE 16

A straightforward par 4 that will always be regarded as a birdie opportunity. It has a most attractive teeing area that is surrounded by water and gives a marvellous example of the course's characteristics.

A challenging drive is required to a dogleg right tree lined fairway. The pin position will determine the real difficulty of the hole as the green is guarded by two large bunkers and a lake on the right to catch the, stray

HOLE 5

The most difficult hole on the course. A very straight drive is the only solution to avoid the water hazards and to set up a challenging long iron to a well protected green.

> HOLE 8

The tee shot must be played to the left-hand side of the fairway to have an easier line into the green. This is definitely a birdle chance.

> HOLE 11

Although there is water between the tree and the green, the real difficulty will be the large, challenging, undulating green set into the trees. A well-judged tee shot is required.

> HOLE 14

This is a very tight drive with a bunker ready to catch the more ambitious player.

Keeping the ball on the fairway is the secret to this hole that turns slightly to the right leaving a medium iron shot to the green. Iwo bunkers keep guard at this difficult sloping green.

A most spectacular par 3 with

views overlooking the mountains

A mid to short iron over water will

send the ball to a large undulating

With the prevailing wind and a large doping green, a good club selection will be needed to ensure par.

A fairly short hole but it needs to be taken seriously. A good drive will leave a short approach to an elevated green.

Any ball missing the putting surface will leave the player faced with a bunker, water or having to negotiate a difficult slope.

HOLE 12

Leaving the driver in the bag could be the best solution on this most attractive par 4.

A well-positioned long iron or 3 wood will leave you a mid to short iron over the water to a large but narrow green.

> HOLE 15

The tee shot again is very important at this hole. There is a large tree situated on the corner of this left-hand dogleg which demands the drive be placed to the righthand side of the fairway. The green is slightly angled to the left of the player so make sure you hit enough club for the second shot. Keep an eye out for the water.

and the sea.

A great finishing hold. This dogleg par 5 demands a good long straight drive, preferably kept to the righthand side of the fairway. From here, it will require a lot of courage, even for the holdest of players, to attempt. the green in two.

The large green which is set on a peninsular just below the dubhouse, is protected by three bunkers, one of which is set behind the green to catch the over hit shot. All the trials and tribulations can be easily seen from the bar and restaurant.
